Brush Fiber Information 93

Dear Valued Customer:

Magnolia Brush Manufacturers, Ltd., now offers you two convenient ways to find information on our extensive product lines. Whether browsing our print catalog or visiting us online at www.magnoliabrush.com, you will find item numbers, pictures, and descriptions at your fingertips. Our website also offers the most up-to-date information, news, and events. As The Choice of the Professional since 1907, we proudly manufacture quality brooms and brushes for the professional tradesman.

Our commitment to quality craftsmanship began in 1907 in Houston, Texas, under the name Houston Brush Company. In 1918, the factory was moved to Dallas, Texas, and became known as Magnolia Brush Manufacturing Co., and began producing corn brooms, shoeshine brushes, GI scrub brushes, and horse brushes for the U.S. Army under a government contract.

In 1953, the company moved to its current location in Clarksville, Texas, becoming the first corporate industry in the area. Today, the company occupies more than 100,000 square feet of floor space and manufactures over 500 different items. Sales continue to grow and distribution is made in all 50 states of the U.S.A. and in some foreign countries.

Since its beginning, Magnolia Brush has been successful in achieving the goal of continued growth and profitability. The company's commitment to employee safety, product quality, competitive pricing, and superior customer service has allowed such success. We will continue to uphold our reputation as a leader in the industry by honoring this commitment.

Sincerely,

Magnolia Brush Manufacturers, Ltd.

Floor Brushes and Handles

STREET BROOMS

Magnolia Quality Street Brooms are staple set in a smooth sanded hardwood block and made from some of the highest quality material available. Built for use in rugged conditions and made to last. Durable long lasting plastic will outlast natural fiber. Will not absorb odors, mildew, rot or discolor. Will not absorb water and rinses clean. Wide flare on ends allows close sweeping to curbs. Bulk Packed.

Heavy Gauge White Polypropylene

Recommended Use: For wet or dry sweeping where a rugged broom is required on rough surfaces such as concrete or asphalt street gutters.

CONCRETE FINISHING – WITH ADJUSTABLE HANDLE SOCKET

Black Styrene

Fiber is staple set in a smooth new and improved marine grade plywood block which resists warping. It was designed with the center row of material coming straight down and the outside rows angled in to create a pointed effect. This light weight brush reduces fatigue while the adjustable handle socket offers flexibility for many jobs such as applying a brushed finish on newly poured concrete. Packed 2 per individual carton / 6 per master carton.

17 Piece Spray Gun Cleaning Kit

Brushes can be used with all types of paint thinners and spray gun cleaning solvents. Ideal for cleaning all types of suction, Gravity feed, HVLP, Detail, Touch Up and Pressure Spray Guns as well as Air Brushes and Stripping Tools.

285	Spray Gun Cleaning Kit	4	12

Wash Mitts

Made of long lasting, soft synthetic fleece. Each mitt is individually packaged in a clear plastic bag.
Recommended Use: Ideal for washing and cleaning.

400	8" x 12" with cuff	3	12
401	9" x 9" square, closed end no cuff	3	12
402	8" x 12" mitt with cuff and thumb	3	12
403	6" x 8" mitt with cuff	1 1/2	12

PVA Imitation Chamois

Made of tough PVA material this product drys any surface without streaking or spotting and is safe for use on most surfaces. This material is resistant to most chemicals and absorbs water much faster than a regular towel or chamois and is resistant to odor, rot and mildew. Store moist in airtight bag or container. Machine wash if needed.

QD-900	17" x 27"	5 1/4	12

Microfiber Cloths

Made from very fine strands of microfiber, these high quality cloths will safely remove dust, dirt and grime without chemicals or detergents. Use damp to clean surfaces or dry for ordinary dusting. Cleans and polishes glass, chrome and brass. Dirt and dust are trapped in the microfiber and removed from the surface. Non-abrasive.
Recommended Use: Detailing automobiles. Use wherever you would normally use a paper towel or dust cloth. Care: Machine wash separately to avoid pick up lint from other items.

Item ID	Description	Carton Wt. (lbs)	Carton Qty.
QD-816Y	16" x 16" Yellow	1 1/2	10

ROLLER COVERS

(9MT025, 9FM075, 9CP038)

(4MR-P10, 4MR-WY10, 4MR-F10)

Mo-Tech

100% Synthetic fiber. Dripless synthetic and lint free.
Recommended Use: Gloss and Semi-Gloss Paints.

Item ID	Length (in)	Nap (in)	Carton Wt. (lbs)	Carton Qty.
9MT025	9	1/4	4	24
18MT025	18	1/4	4 1/2	12

Foam

Yellow Foam Roller Covers with PVC core. Large cover (9FM075) made with slits to ensure even coverage on rough or uneven surfaces. Foam covers won't splatter, mat or leave fuzz in finish and are seamless for even coverage. Foam does not absorb paint, resulting in easy clean up with water if you are using latex paint or with the correct solvent if you are using paints other than latex.
Recommended Use: For use with all paints (NOT lacquer or shellac). Great for getting a lot of paint onto porous surfaces (such as wood paneling or cabinets), and for creating super-smooth finishes with glossier paints.

9FM038	9	3/8	2	12
9FM075	9	3/4	2 1/2	12

Heavy Duty Carpet Roller Cover

For a texture finish. Synthetic, gray carpet twist fabric on phenolic core creates a stippled effect on smooth to medium surfaces with all paints

(DOUBLE PRONG HOOK)

Designed to mount on peg boards. Stores long-handled tools, brooms, etc. to keep them off the floor and out of the way when not in use. Made of steel with protective coating to prevent rusting. 17" Overall Length, 4 1/2" wall mount plate.

Item ID	Description	Quantity	Weight
Double Prong Hook	17" Display Hook	6	8

Black painted tubular metal rack holds 24 fully assembled brooms. Base: 24" x 24" Overall Height: 73 1/2"

RK1	Assembled Broom Race	1	27

(RK-1)

BRUSH FIBER INFORMATION

Horsehair

Produced in the United States, South America, Canada, Australia, and China from the tails and manes. The tails produce the stiffer grades in both black and grey. The mane hair is soft and produced in both black and grey, also. Horsehair is used in a variety of brushes such as, floor sweeps, shoe shine brushes, tin handle acid brushes, counter dusters, window brushes, etc.

Nylon

A synthetic man-made filament that offers excellent resiliency and durability. This fiber has high water absorbency and is impervious to solvents, alkali and certain acids and is immune to most common chemicals. Nylon can withstand use near high temperatures and has high resistance to abrasion.

Palmyra

Palmyra is a natural cinnamon-color fiber obtained from the leaf stalk of a palm tree native to India. Palmyra is obtainable in the prime stiff and medium stiff grades. This fiber is used in garage floor brushes, gong or fender washing brushes, deck brushes, scrub brushes, etc.

Palmyra Stalk

This is a very coarse fill having the appearance of split bamboo. The stiff long-lasting material is used almost exclusively in street and contractor brooms.

Polypropylene

Available in a variety of diameters and colors. Polypropylene is highly resistant to petroleum solvents, acids, caustics and detergents. Polypropylene is used in brushes such as acid brushes, garage floor brushes, and black-top coater brushes. POLYPROPYLENE IS NOT AFFECTED BY ACIDS.

Polystyrene

Also available in a variety of diameters and colors. Polystyrene is highly resistant to acids and detergents, but has a lower resistance to petroleum solvents. Polystyrene has excellent flexibility and wear ability, which makes it Magnolia Brush Manufacturers' choice for a filament in floor sweeping brushes, car washing brushes, scrub brushes and many others.

Tampico Fiber

A vegetable fiber obtained from the Argava Lechuguilla cactus which grows wild on mountain slopes in Mexico. The natural color of the fiber is cream color. Tampico fiber is obtainable in natural color and dyed colors as well as mixtures of different colors. Tampico is used in floor sweeping brushes, acid brushes, counter dusters and many other brushes.

Union Fiber

A mixture usually of Tampico and Palmyra and often including Bassine. This fiber is cream and medium brown in color and is used in many different styles of brushes for wet or dry scrubbing.

Wire

A variety of wires are used in our brushes. We use only very high psi carbon and stainless steel wire in our scratch brushes and tempered brass in our aircraft brushes, white sidewall brushes and special-use brushes.
